

Air Plant Gourd Vase

Remember those adorable air plant vases that Robi showed at the last general meeting? Well, lucky for us. Robi will be the guest instructor at the next Woodcraft Patch on Nov. 21. Our project will be making an air plant vase.

Cost of class: \$8.00 for class and supplies. Please have correct change or small bills.

Air plants and succulents sold separately for an additional cost of \$1.50-\$3.00, depending on your selection. Or you can also shop for an air plant on your own if you prefer.

Materials supplied: Robi has graciously said that she will provide all necessary supplies, *excluding* alcohol ink.

Robi suggests that *“this is a great opportunity to start your own collection of alcohol ink. Some of my preferred brands are Ranger and Jacquard alcohol ink. Craft Warehouse has a great selection of colors and frequently has sales on their alcohol inks. It would be best to select 3 colors. Joanne’s has a pretty good selection of three packs and frequently have coupons through their app.”*

Robi is supplying the mini gourd vase, base for the gourd vase, glue, moss, and a small mister of alcohol.

Materials you should bring:

- 3 colors of alcohol ink

Clean up: at the conclusion of class, we need to put away the tables and chairs. It would be greatly appreciated if you could help.

*****Please RSVP to Robi at your earliest convenience.***

This will ensure that Robi has enough supplies. Due to space, we may have to limit class size. But we will do our best to squeeze everyone in.
